Messrs. CLIFFORD & SON, Fulham, writing to us say:—"The first batch of sixteen vehicles were purchased in January, 1923, and they have been in continuous service ever since, working under severe conditions and in all weathers. These vehicles are still running satisfactorily. During our many years' experience of Motor Haulage we have had opportunities of trying various makes of machines, and can safely say the Berliet is one that will stand up to its job with entire satisfaction."

Messrs. Clifford & Son, who have a fleet of 43 Berliet vehicles, found that our heavy trucks not only stand up to the most severe conditions, but are a source of satisfaction, but are also a most economical means of promoting transport economy.
