THE MOTOR WORLD

*The car
that doesn't
answer back*

The Ford is an obedient car. It is told to climb hills and it climbs hills; it is told to accelerate and it passes like a bird; it is told to go far distances and it flies along to the end. And on short journeys, it's as agile and willing as a new messenger boy. If, as sometimes happens to all human things, there comes a cough or an ache, there's a Ford Dealer down the road, a mechanic specially

trained by Ford and standard parts, repairs and maintenance at standard fixed prices. This is the Ford Service — everything as it should be. The big difficulty now is delivery of your new Ford. We and your dealer are doing our best about that, so please be patient.

The image shows three vintage Marconi-Phone television sets in their original boxes, arranged horizontally on a wooden surface. The left box is for the VC68DA model, featuring a wood-grain finish and a price tag of £72-19-6. The middle box is for the PATONS FLAIR model, featuring a family photo and a price tag of 104. The right box is for the VC68DA model, featuring a wood-grain finish and a price tag of 83 GNS. A large red number '104' is overlaid on the right side of the image. The background shows various tools and parts, suggesting a workshop or repair shop setting.

The Autocar

FOUNDED 1895 LARGEST CIRCULATION

THE BELLE OF NEW YORK

The Austin A40 Somerset is a great favourite in the States. They like it for its stylish good looks, its roominess and refinements . . . and for its better-than-ever version of

the record-breaking 42 b.h.p. O.H.V. Austin engine.

From the canyons of Manhattan to the Main Streets of the Mid-West the Austin A40 Somerset is in for a good run.

AUSTIN—you can depend on it!

Petrol

PETROL-PARAFFIN

List

INSTALLATION. Fix Engine to be arranged with bottom pipe level from engine. Exhaust Pipe if external diameter and be turned downwards.

STARTING. New or overhauled engine. Remove Door "A" and Filler "K." Pour Oil through door opening until filler is full, also fill timing gear trough, through hole on left inside door opening. Maintain level by adding new oil only through filler "K." Oil should always be visible in this filler. Remove plug marked "W" and pour a teaspoonful into timing "W." Fill fuel tanks (using fine gauze strainer) and water system, if tank cooled ensure 3-way tap "I" is turned on. Turn on fuel tap "L," pull flywheel in opposite direction to arrow until compression is felt.

STARTING. "D" Type. Adjust Fuel Regulator "R" to not val setting, then while turning Start Handle place a finger of the other hand on the end of Air Valve Stem "C" to give a rich mixture for starting. Always turn down fuel regulator as far as possible without slowing engine.

To Stop. Turn off Fuel Regulator "R" and Fuel Tap "L."

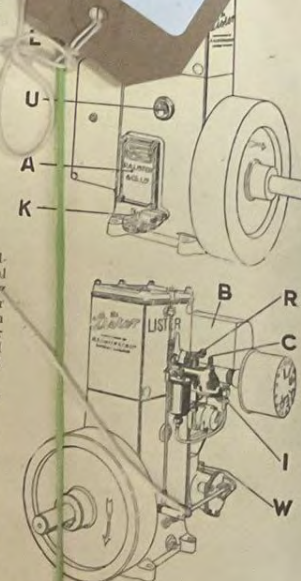

STARTING. "P" Type. Switch on ignition. Flood Carburettor. Hold air strangler closed and turn starting handle.

To Stop. Switch off ignition and turn off Fuel Tap.

Petrol-Paraffin. Turn lever on Crankcase Lubricator to vertical position. When engine is hot turn on paraffin.

If engine misfires strangle air for a few seconds. After Stopping turn lever on Lubricator to horizontal position and drain paraffin from float chamber.

LUBRICATION. Use Listrol L2 for Temperate and L3 for Tropical conditions and for paraffin engines, alternatively a good medium body motor car engine oil. In cold seasons a thinner oil should be used than in hot seasons. Drain sump and clean out with paraffin every 3 months.
